## Get Your Applications to Market Sooner with Rapid Development & Test in Azure

Every development team needs a development infrastructure in place to design, develop, test, and deliver custom software. Without this dev and test infrastructure, the team cannot work.

Implementing and maintaining a development infrastructure in physical, on-premises hardware is inherently costly and prone to delays due to long procurement cycles and increased effort required. Scalable, on-demand cloud infrastructure empowers development and test teams to be more agile, deliver faster, and deliver higher quality.

### *Benefits of Leveraging Microsoft Azure for Your Dev/Test Infrastructure:*

up to **30%**

**Cost Savings**

when you lower your Dev/Test infrastructure needs

Save **Weeks**

or even **Months**

when you remove Dev/Test infrastructure provisioning delays

React **Faster**

to business changes when you keep up with changing infrastructure demands

**Boost Productivity**

when you get the compute, storage, and network resources you need,

in **Minutes**

## Sounds Great! How Do I Get Started?

Most organizations lack the experience to know how to successfully setup a full Dev/Test solution in Azure. As an Azure Circle partner, Imaginet is recognized by Microsoft as having the expertise needed to help organizations start using Microsoft Azure for Dev/Test today.

“From the five engagements that we have done with Imaginet so far, we’ve been really, really happy with each one of them. Imaginet is a really good company to work with, and their reputation speaks for itself.”

*Michel Thivierge, Director of Application Architecture, DataScan Holdings*

## Get Started Today with Imaginet’s 5-Day Azure Dev/Test Quick Start!

With Imaginet’s Azure Dev/Test Quick Start, Imaginet will create and configure a customized Azure environment and guide you through how to rapidly develop, build, deploy, and test your applications in Azure in just 5 days. At the end of our Quick Start, we will provide your team with the essential Azure mentoring you will need, as well as clear roadmap for your next steps.

### Day 1

Kickoff, Planning,  
& Assessment

### Day 2

Envir. Migration  
into Azure

### Day 3

Setup Dev/Test in  
Azure

### Day 4

Azure Mentoring

### Day 5

Finalize & Review

### Roadmap & Next Steps

## The Imaginet Advantage

- **Experience.** Imaginet’s Azure team has designed, deployed, and mentored organizations on Microsoft Azure and has real world experience with this tool.
- **Working Azure Environment.** Your customized Azure environment will be setup and configured with industry leading best practices and Microsoft Certified Consultants.
- **Integrated Best Practices.** Our consultant will ensure that best practices are tailored for your environment and integrate with organizational processes throughout the project.
- **Just In Time Education.** Learn the skills you need for your Azure environment with no lag between the learning and the implementation of knowledge.
- **Flexible Engagement Models.** Imaginet is there to do the work, assist and guide, but your team is ensured that they get the hands-on experience required to be successful.

Bring the combined power of Imaginet’s expertise and the flexibility of Microsoft Azure to your team today! **Get started today by emailing [info@imaginet.com](mailto:info@imaginet.com) or calling 1-800-989-6022.**
